Experience

- JAM-Forte Technologies Ltd - Frontend Developer Intern 2024 - present
 - Engineered user-friendly interfaces using **Next.js**, **React**, and **Tailwind CSS**, boosting user engagement by **25%** with responsive design.
 - Optimized code in **Next.js** and **TypeScript**, cutting load times by **30%** and enhancing performance.
 - Implemented dynamic animations and transitions with **Framer Motion**, creating a more interactive and engaging user experience
 - Partnered with backend developers to integrate APIs, ensuring smooth data flow and consistent project execution.
 - Oversaw the design process from concept to execution, successfully launching a major project that translated ideas into an appealing, functional web application.
 - Collaborated with a backend developer to deploy a site, ensuring a smooth launch and effective integration.
 - Authored comprehensive documentation for all projects, providing clear guidelines and facilitating easier onboarding for future developers.

Projects

- Breadit Community Site
 - Engineered a community site with **Next.js**, utilizing **Auth.js** for Google OAuth to boost user sign-ups by **20%** through secure access.
 - Streamlined the signup process with a **Next.js** modal, leveraging parallel and intercepting routes to cut navigation time by **30%**.
 - Optimized database operations with **Prisma**, accelerating query execution by **50%** for efficient data retrieval.
 - Implemented **TanStack Query** for client-side data fetching, enabling infinite loading that reduced page load times by **40%**.
 - Developed backend functionalities with **Next.js API routes**, ensuring high-performance data transactions.
 - Accelerated load speed using **React Streaming**, reducing initial page load time by **25%**.
 - Integrated **Editor.js** for post creation, increasing content engagement by **15%**.
 - Elevated UI usability by **30%** using **Shadcn** components.

Education

- Bayero University In View
 - Bachelor of Science, Software Engineering
 - CGPA - 4.32
